

MEMORANDUM

AGENDA ITEM #III.H.4

DATE: JUNE 6, 2011

TO: COUNCIL MEMBERS

FROM: STAFF

SUBJECT: MIAMI-DADE COUNTY ADOPTED COMPREHENSIVE PLAN AMENDMENT
DCA #11-1

Community Profile

With a U.S. Census 2010 population of 2,496,435, Miami-Dade County is the most populous county in Florida. The County's population increased by 10 percent during the last decade but experienced a small decline of almost 5,000 between 2008 and 2009, according to estimates by the Bureau of Economic and Business Research (BEBR). The most recent BEBR projections show the County's population increasing by approximately 18,800 new residents per year through 2020, reaching a little under 2.7 million in that year. The percentage of the population that is of working age or younger is larger in Miami-Dade County than the state average.

The structure of the County's economy is heavily service and trade oriented, with approximately 57 percent of total employment in these sectors. The County has established itself as a wholesaling and financial center and major tourist destination. Miami-Dade County ranks ninth in export sales among all metropolitan areas in the country. Almost a quarter of the state's total employment in transportation is located in the county. The Port of Miami is the largest cruise ship port in the world and one of the largest container ports in the southeast. The urbanized portion of the county lies between two national parks, Everglades and Biscayne National Parks. The close relationship of tourism to the preservation of Miami-Dade County's unique native plants and wildlife has been recognized as an economic as well as an environmental issue. In order to manage growth, the County's Comprehensive Development Master Plan (CDMP) establishes an Urban Development Boundary (UDB), which distinguishes the area where urban development may occur from areas where it should not occur. The general location of the County is shown in Attachment 1.

Amendment Review

The South Florida Regional Planning Council (SFRPC) review of proposed Comprehensive Plan amendments for consistency with the *Strategic Regional Policy Plan for South Florida (SRPP)* primarily addresses effects on regional resources or facilities identified in the *SRPP* and extra-jurisdictional impacts that would be inconsistent with the Comprehensive Plan of the affected local government (§163.3184(5), Florida Statutes). The Council's review of amendments is conducted in two stages: (1) proposed or transmittal and (2) adoption. Council staff reviews the contents of the amendment package once the Department of Community Affairs certifies its completeness.

Objections and Comments relate to specific inconsistencies with relevant portions of the *SRPP*, which was adopted pursuant to Rule 29J-2.009, Florida Administrative Code. Council staff will work with local governments to address Objections and Comments identified during the review of a proposed amendment between the transmittal and the adoption of the amendment.

Staff Analysis

The Miami-Dade County adopted amendment #11-1 introduces a new optional Community Health and Design Element (County Application 4) and contains text amendments to the Open Land Subarea 4 of the Land Use Element of the Miami-Dade County Comprehensive Development Master Plan (CDMP) to allow for agriculture production and the raising of livestock (County Application 5).

The proposed amendment was reviewed at the February 7, 2011 Council meeting and found to be generally consistent with the *SRPP*. Application 6 was withdrawn by the applicant, and Applications 4 and 5 of were adopted as proposed. The March 23, 2011 Objections, Recommendations, and Comments (ORC) Report issued by the Florida Department of Community Affairs (DCA) did not contain any objections.

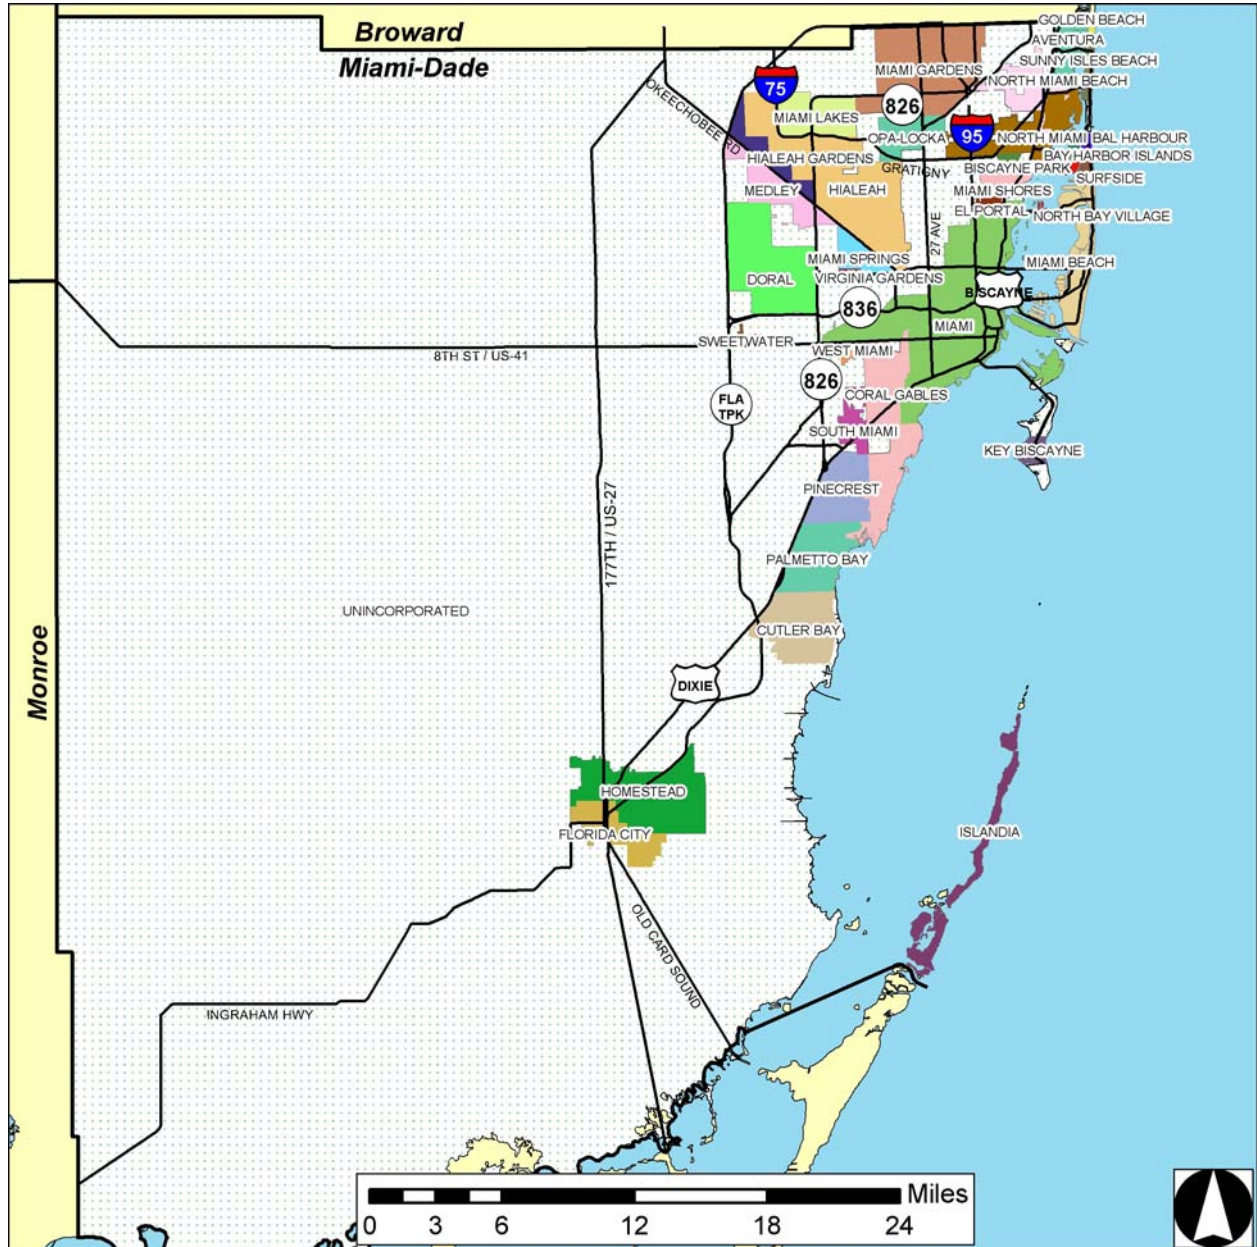

Staff analysis confirms the text amendments are generally consistent with the *SRPP*.

The Board of County Commissioners approved (10-0) the adopted amendments at its April 27, 2011 meeting.

Recommendation of Consistency with the *Strategic Regional Policy Plan (SRPP)*
