

# MEMORANDUM

AGENDA ITEM #8f

---

DATE: DECEMBER 1, 2008  
TO: COUNCIL MEMBERS  
FROM: STAFF  
SUBJECT: SOUTHEAST FLORIDA 2060

---

A brief update regarding the visioning process currently known as Southeast Florida 2060 will be presented by Council staff at the December meeting.

The Southeast Florida 2060 initiative will provide a framework for integrated and unified regional investment strategies to assure a high quality of life and economic competitiveness for the our communities' collective future. The initiative will promote and foster a shared understanding of the region's natural, physical, social, and economic assets while respecting the diverse character of the region. Most importantly it will increase the public's recognition and understanding of the region's shared values, challenges and opportunities while providing the same public with an opportunity to influence decisions about what changes need to occur in the region.

For purposes of this initiative, the "region" consists of the counties within both the South Florida and Treasure Coast Regional Planning Councils' purview.
