INTERVIEWER NOTE: Select on the basis of age where "1" means the oldest with "2" through "6" assigned down to the youngest. It is very important for the sampling to follow the direction of the random key. If that person refused, then that household refuses and no one from that household can be interviewed.

- In order to randomly select the person I need to talk to, I need to know how many adults 18 and over live in this household?
