

Biscayne Bay Coastal Wetlands

Presenter: Dewey Worth, Dir. CERP Project Management, SFWMD

Goal and Objectives

Goal:

Restore or enhance freshwater wetlands, tidal wetlands , and near shore habitat

Objectives:

Re-distribute freshwater flow from the canal system.

Restore and improve quantity, quality, timing and distribution of freshwater to the bay.

Improve salinity distribution and re-establishment of nursery habitat along the shoreline.

Biscayne Bay Coastal Wetlands, Phase 1

Cutler Wetlands (C-1 Canal)

Cutler Wetlands and Deering Estate (C-100 Canal)
